

NEW WI-FI PROJECT

COUNSEL'S
CHAMBERS
LIMITED

2 May 2022

Dear: Members and Clerks

Improvements to Wi-Fi Service

I am pleased to announce that to improve coverage and reliability, CCL is currently moving forward to install a new Wi-Fi service in Wentworth, Selborne, Lockhart & Windeyer Chambers. The new service will be a 'hotel style' deployment with a small access point being installed in every Chamber in Selborne, Wentworth and Windeyer Chambers (due to the building's construction, the current design of the Wi-Fi service in Lockhart Chambers appears to be adequate so access points will only be installed in the current access point locations). It is anticipated that the new service will significantly improve Wi-Fi coverage throughout the buildings and provide a better backend user interface and diagnostics.

As the first step in this process we are currently exploring this style of deployment with two competing vendors that have similar products which would be suitable for our needs. We expect to install the service as a 'Proof of Concept' on two half floors over the coming months. We do not expect to have the full rollout of this project finalised until much later in the year, based on the availability of the equipment this will probably be around September.

Please contact our IT Department if you have any questions about this service. As soon as timing relating to delivery of product is available CCL IT staff will be in touch directly with the two half floors regarding the installation of the 'Proof of Concept'.

Kind Regards,
Debbie George
CEO
