

Phasing out of non-LED Lighting

25 September 2023

Dear: Members & Clerks

Phasing out of non-LED lighting

As part of CCL's long-term efforts to reduce its carbon footprint, assist in the development of its sustainability framework, reduce power consumption and prepare for the possibility of mandatory sustainability reporting, CCL needs to phase out all non-LED lighting in the buildings.

Members and Clerks will be aware that CCL replaces light globes and tubes as a service to Members and Floors. In order to achieve the goals set out above, from 1 January 2025, CCL will no longer support non-LED lighting (ie: CCL will not replace globes and tubes in fittings that are not LED). CCL therefore recommends that for the reasons stated above Floors and Members that haven't already upgraded to LED lighting to consider the impact of this operational change and upgrade lighting both in common areas and in individual chambers to LED lighting over the coming 15 months.

We also encourage Floors, if they haven't already done so, to install lighting sensors and timers on their Floors which will ensure that after hours lighting is only activated as required thus reducing power consumption. As previously advised, electricity costs in the buildings will increase significantly from 1 January 2024, as a consequence, now is the time to be considering implementing strategies to reduce power consumption on your Floors.

We appreciate the support and co-operation of our Members and Clerks as we move forward with these energy saving initiatives which will ultimately reduce the carbon footprint for both CCL and its Member Floors.

Please contact the [CCL Maintenance Team](#) if you have any questions relating to this matter.

Kind Regards,
Debbie George
CEO
