The screenshot shows the 'Manage Devices' page in the Cisco My Devices Portal. The header includes the Cisco logo and the text 'My Devices Portal'. A user greeting 'Welcome wifiuser' is visible in the top right. The main content area has a title 'Manage Devices' and a subtitle 'Need to add a device? Select **Add**. Was your device lost or stolen? Select your device from the list to manage it.' Below this, it says 'Number of registered devices:4/5'. There are two buttons: 'Refresh' and 'Add'. A section titled 'Manage Devices (4)' contains a search bar 'Filter items...' and a list of four devices:

Device Name	Status	Action
My Mac My Macbook 28:07:5A:1E:2A:1234	Registered	>
My Laptop My Windows 7 Laptop 9C:5E:5A:5E:27:12:AA:BB:BB:77:88:99	Pending	>

- Once you have selected a device you can choose from the following options -
Lost or Stolen: Choosing these options will disconnect the device from the network, but will keep the device listed in your account so that you may reinstate the device at a later time. If a device is marked as stolen, you will need to follow the On Boarding instructions after reinstating the device.
Edit: Allows you to edit the description of the device
Delete: This option will remove the device from your list of devices. To re-add a deleted device you will need to follow the On Boarding instructions again.
