

## Counsel's Chambers Limited Network Device Connection – Mac OS Wireless

Before connecting to the CCL wireless network, it is recommended to create a new network 'Location' in your Mac's network settings. This will allow you to easily switch between the CCL network configuration and another network's configuration (e.g. your internet connection at home). To create a network location follow the instructions below

- (a) Click the Apple icon at the top left of the screen and click **System Preferences**.
- (b) Click **Network**.
- (c) Click on **Location** then click on **Edit Locations**.
- (d) Click on the **+** symbol to create a new location. Give the new location a name (eg. 'Chambers') then click **Done**.

- (e) Make sure the new location is selected, then click **Apply** to save. You can now proceed with connecting to the CCL wireless network on page 2. To quickly switch between from the CCL network configuration to another network's configuration (e.g. your internet connection at home), click on the Apple icon at the top left of the screen, go to **Location**, then choose **Automatic**. When you are reconnecting back to the CCL network, choose **Chambers**.

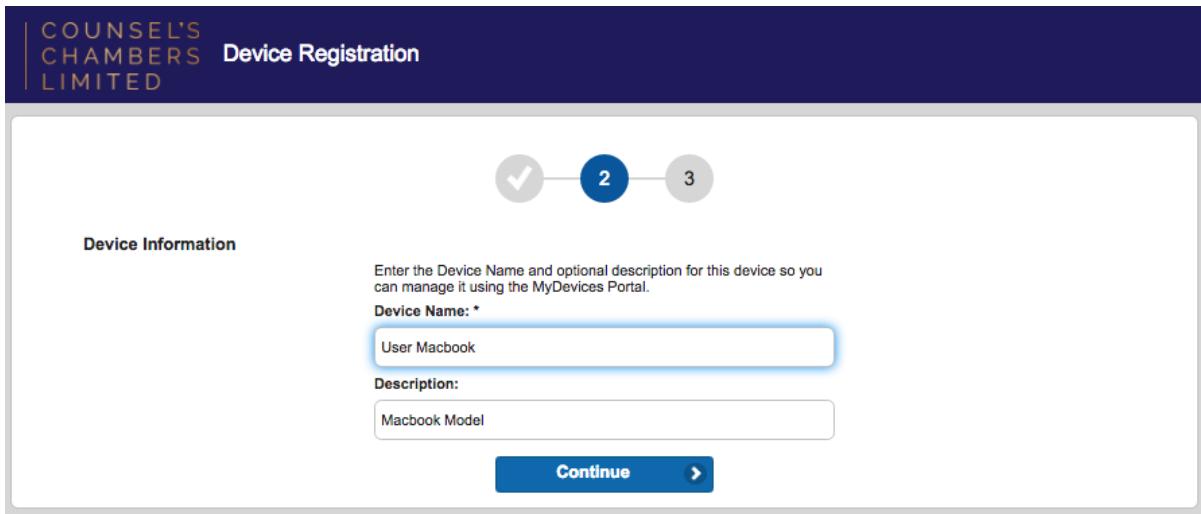

1. Make sure Ethernet is connected
  
2. Open a browser (Firefox/Safari/Chrome) and browse to any website or [www.ccl.com.au](http://www.ccl.com.au). You will be redirected to the login screen **CCL Wireless Registration Portal**.
  
3. Login with your CCL Network username and password. If you do not know your password contact CCL support on 9221 6235 or email [support@counselschambers.com.au](mailto:support@counselschambers.com.au).

A screenshot of a web-based sign-on form for 'COUNSEL'S CHAMBERS LIMITED Device Registration'. The page has a dark header with the company name and a 'Device Registration' sub-header. Below this is a 'Sign On' section with instructions: 'Welcome to the CCL Network Device Registration Portal. Sign on with your Counsel's Chambers username and password.' There are two input fields: 'Username' containing 'Macbook User' and 'Password' containing several dots. To the right of these fields is a large box titled 'COUNSEL'S CHAMBERS LIMITED' containing the 'CCL's Acceptable Use Policy' and 'Policy for the use of CCL Network'. The policy text includes sections 'A. APPLICATION' and numbered points 1 through 3. At the bottom of this box is a checked checkbox labeled 'I agree to the terms and conditions'. Below the box is a large blue 'Sign On' button.

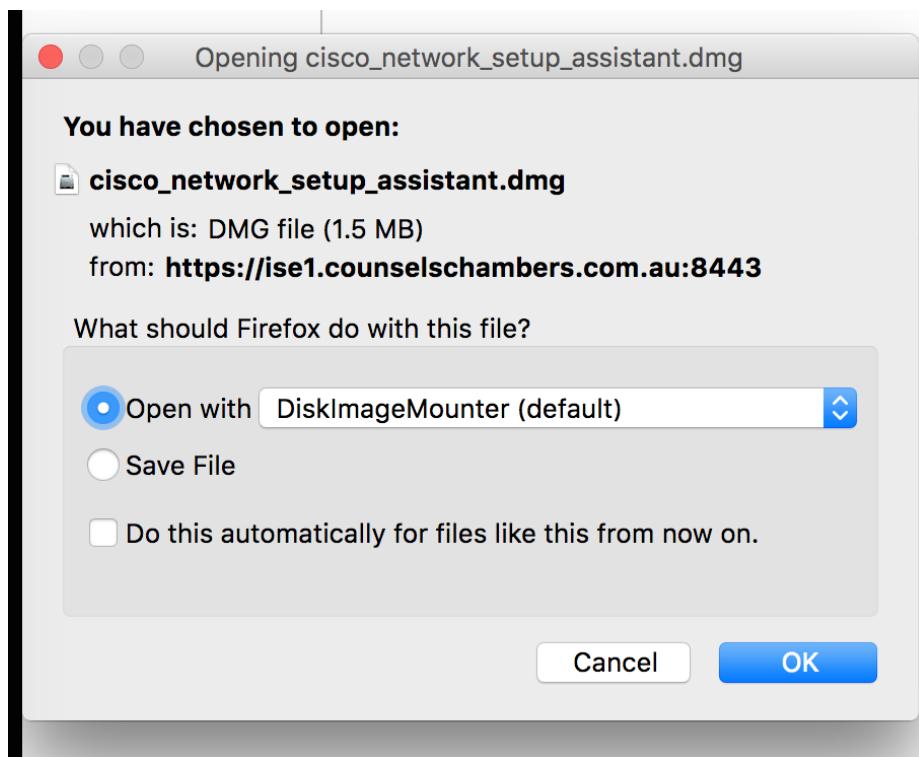

4. Press the **Start** button.

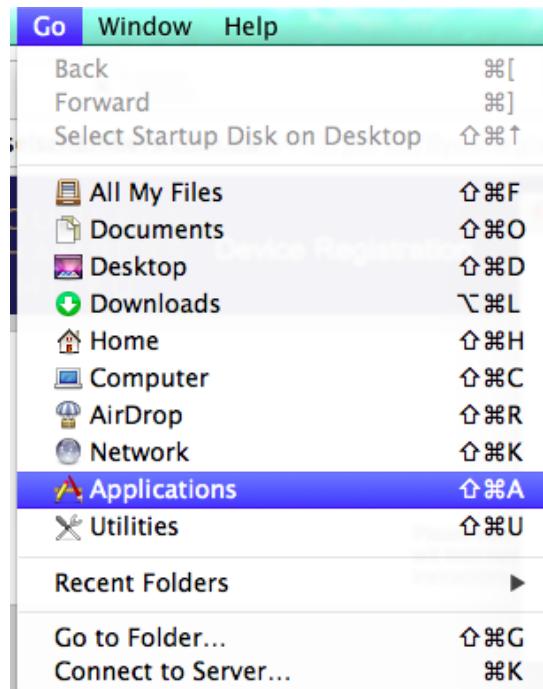

5. Enter a name and description for your computer.

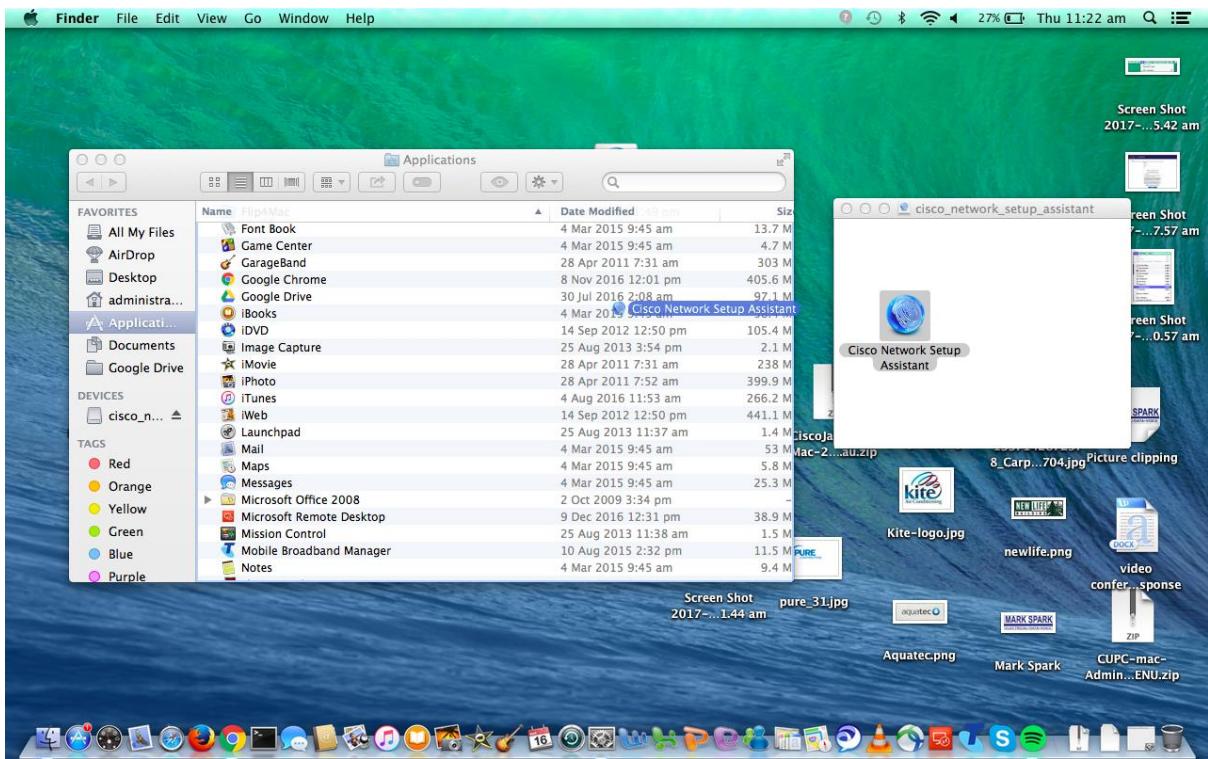

6. You will be prompted to download and run the **cisco\_network\_setup\_assistant.dmg** tool. Select **Open with DiskImageMounter** and press **OK**.

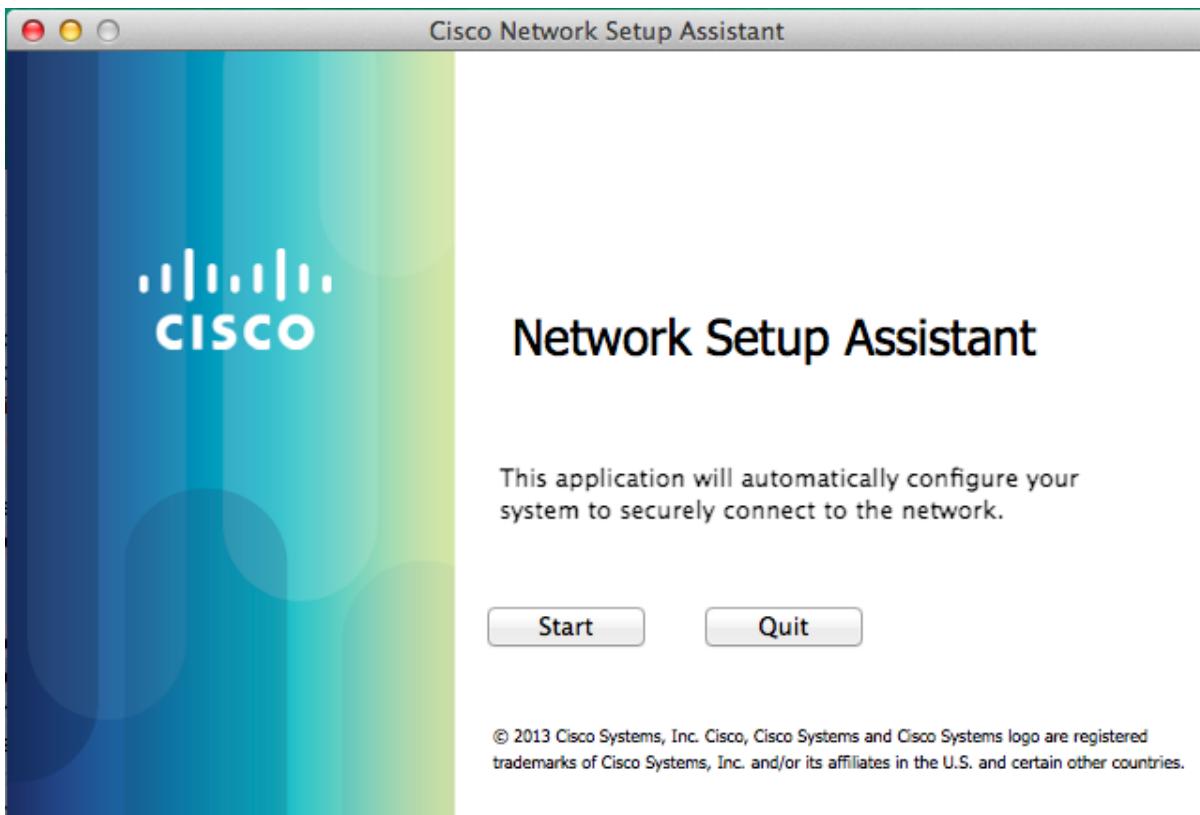

7. Open Applications Folder under Go.

8. Drag The Cisco Network Setup Assistant into the applications folder.

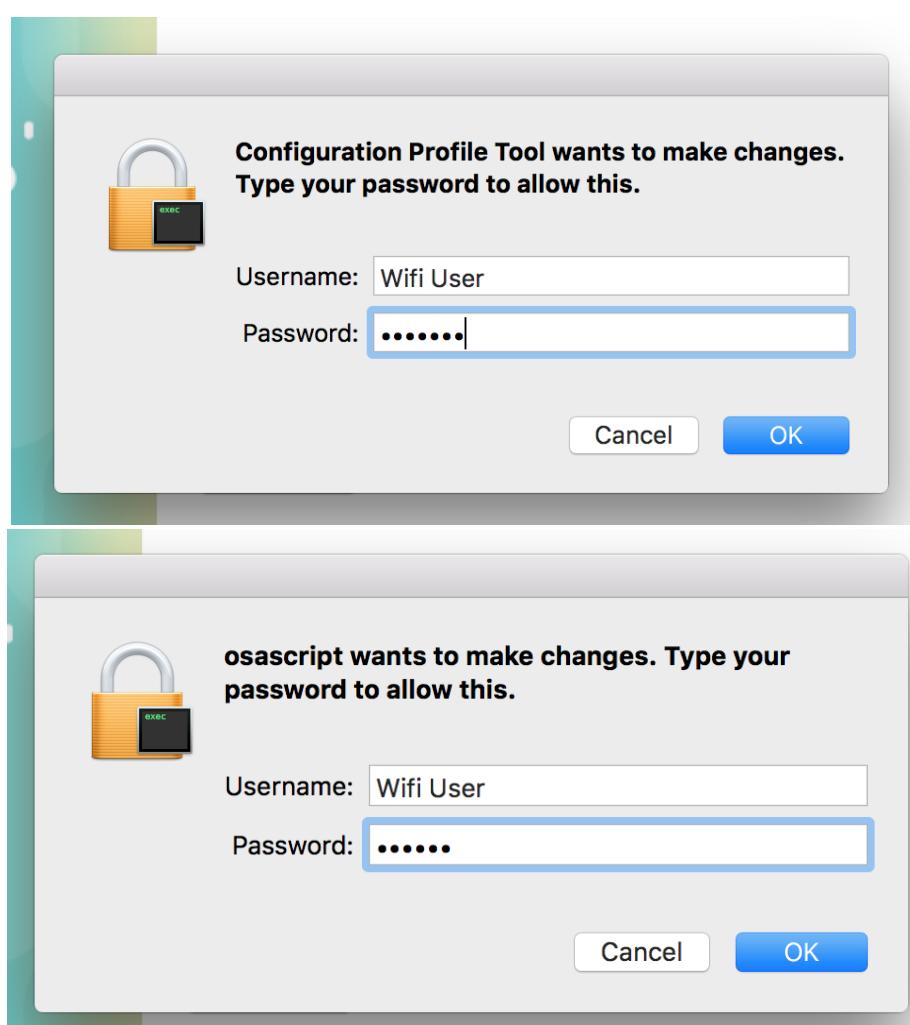

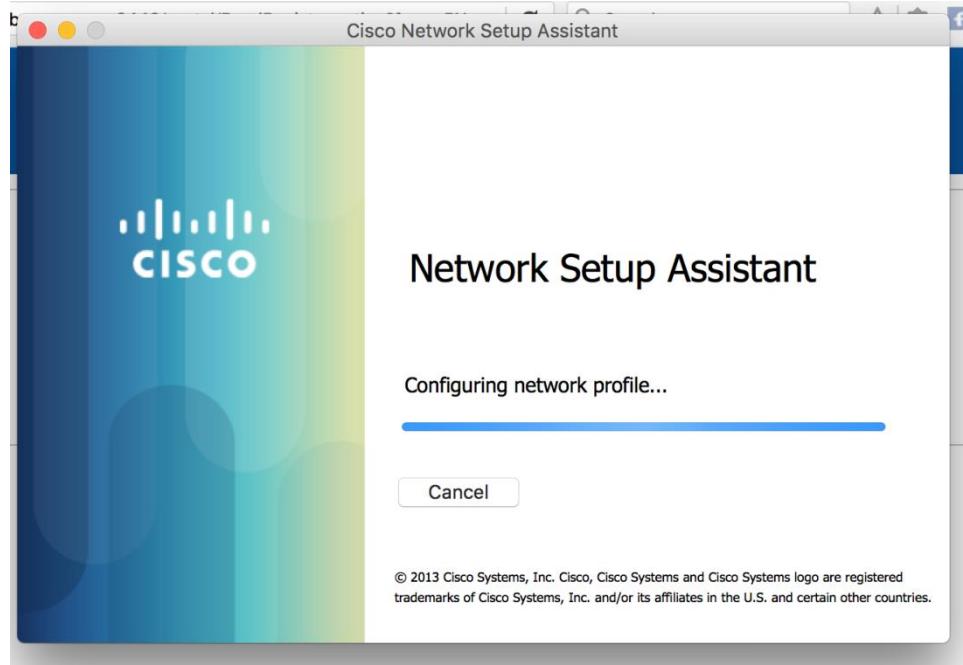

9. The **Cisco Network Setup Assistant** program will open. You may be warned that the application was downloaded from the internet, select **Open**. Press **Start**.

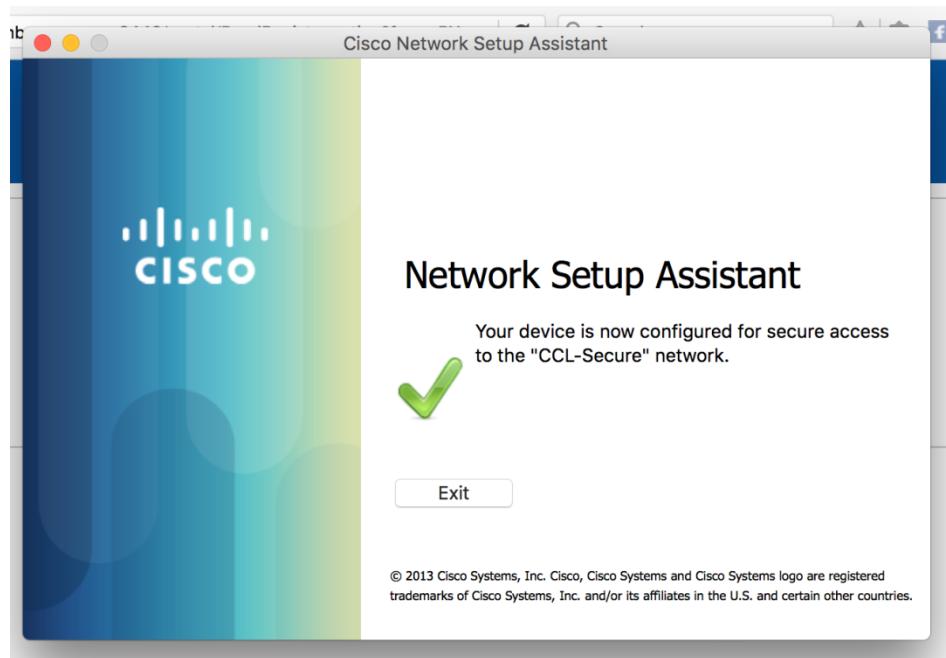

10. You will be prompted to install the **ise1.counselschambers.com.au** security certificate.  
Press **Continue**.

11. You will be prompted for your Username and Password two times. Enter the username and password for your local computer account

12. Your device is now able to connect to the **CCL-Secure** Wireless network.

13. The connection is complete, and your computer will automatically connect to the **CCL-Secure** wireless network.
