Connecting to the network: iPhone & iPad

Important:

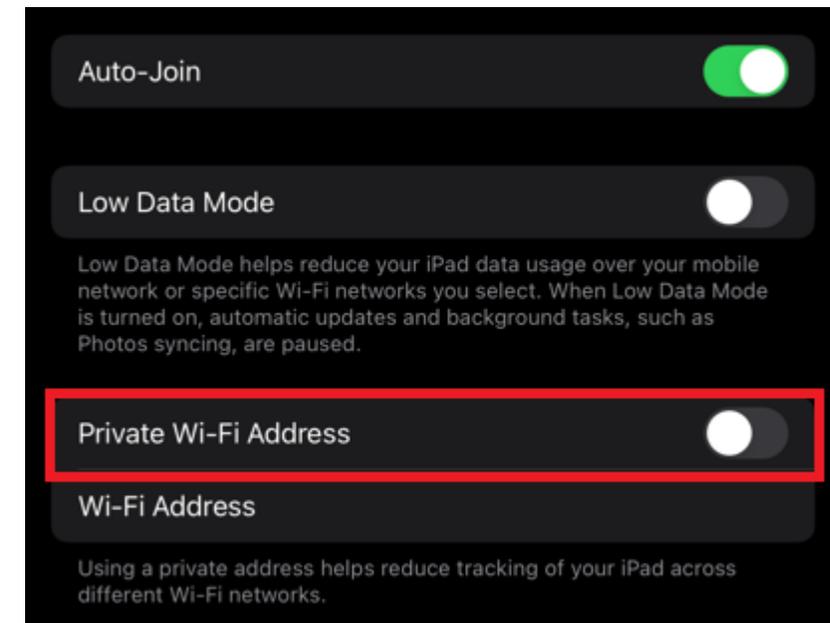

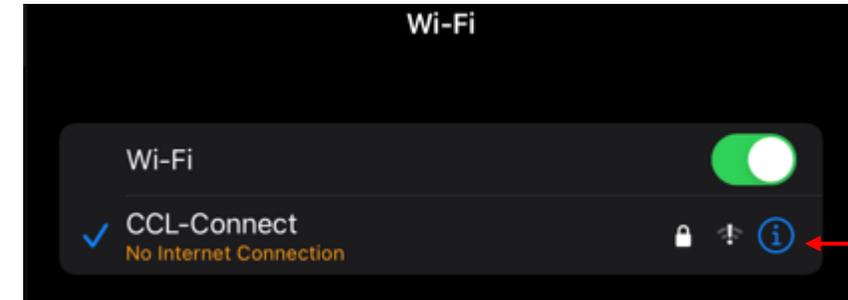

Before you proceed, as part of connecting to the network, you will need your CCL Network username and password. If you are unsure of your username and password, you can verify or reset your password at password.ccl.com.au, or if you require any further assistance regarding the following instructions, please contact CCL Support via email at support@ccl.com.au.

Step 1

Connect to the **CCL-Connect** wireless network and enter your CCL username and password.

A notification will appear, click **Trust**.

Click the “i” next to CCL-Connect. This will open the settings for CCL-Connect. Turn **Private Wi-Fi Address OFF**

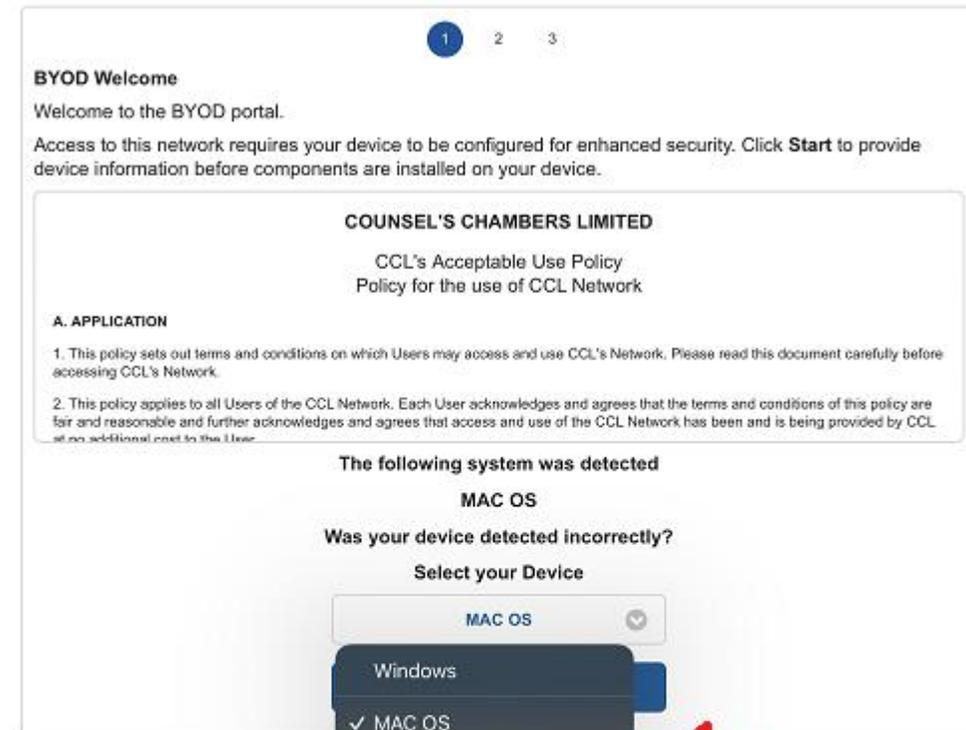

Step 2

Open the Safari browser and type **login.ccl.com.au** in the address bar.

You will be redirected to the onboarding screen **BYOD Portal**. (This may happen Automatically on some devices).

After reviewing the CCL Network Acceptable Use Policy, check that the correct device type is selected, then click **Start**.

Step 3

Enter a **Device name** and press **Continue**.

The description field is optional.

The screenshot shows a 'Device Information' form with a progress indicator at the top showing steps 2, 3, and 4, with step 2 being the current step. The form contains the following elements:

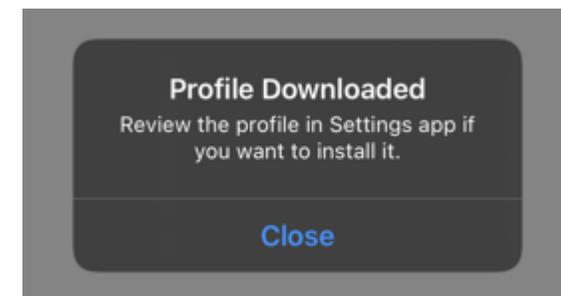

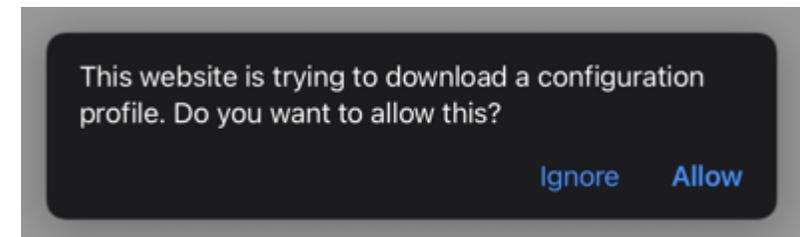

- Device Information** header
- Instruction: "Enter the device name and optional description for this device so you can manage it using the My Devices Portal."
- Device name: *** label above a text input field.
- Description:** label above a text input field.
- Device ID:** label above a text input field.
- A blue **Continue** button with a right-pointing arrow.

Step 4

Select Launch Apple Profile and Certificate Installers Now

You will be asked to allow the download and configuration of a network profile. Click **Allow**.

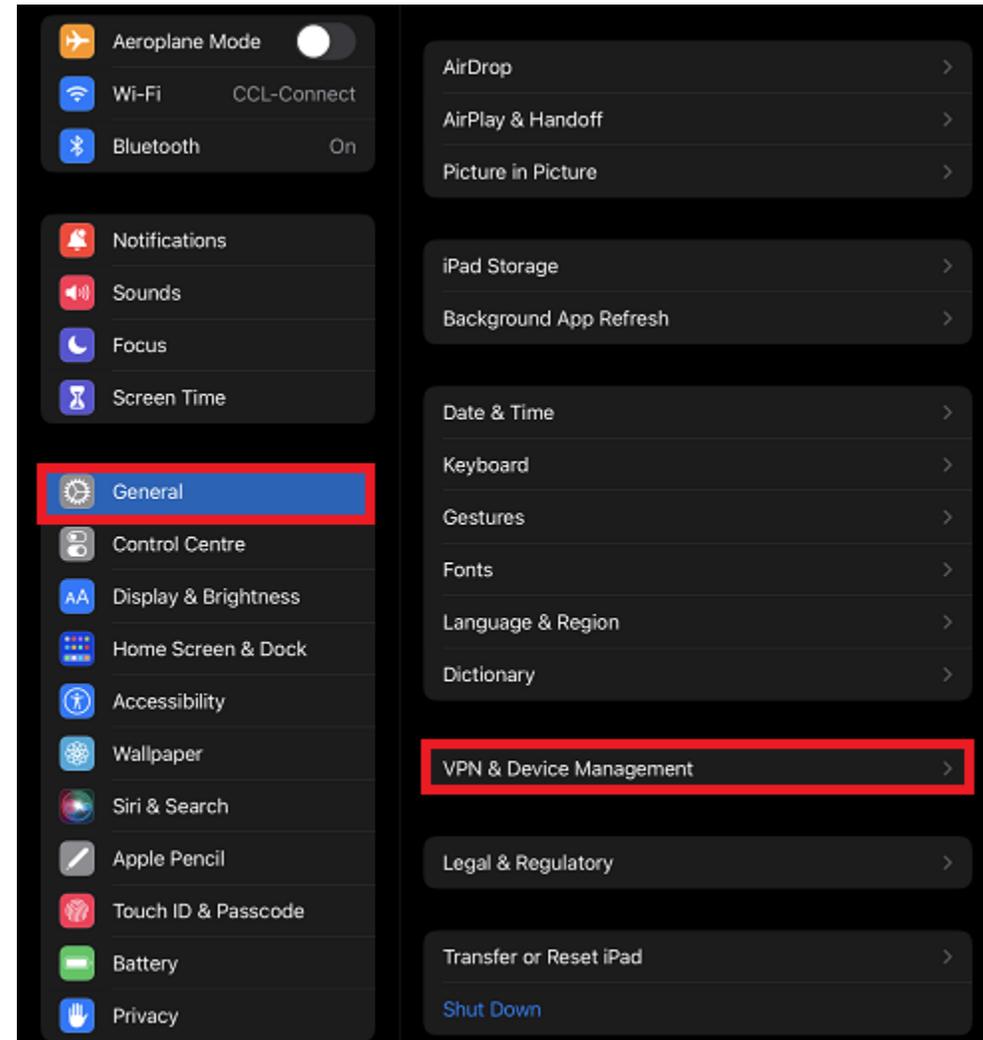

Once the download is complete, head back to your iPhone/iPad's settings.

Step 5

Select General

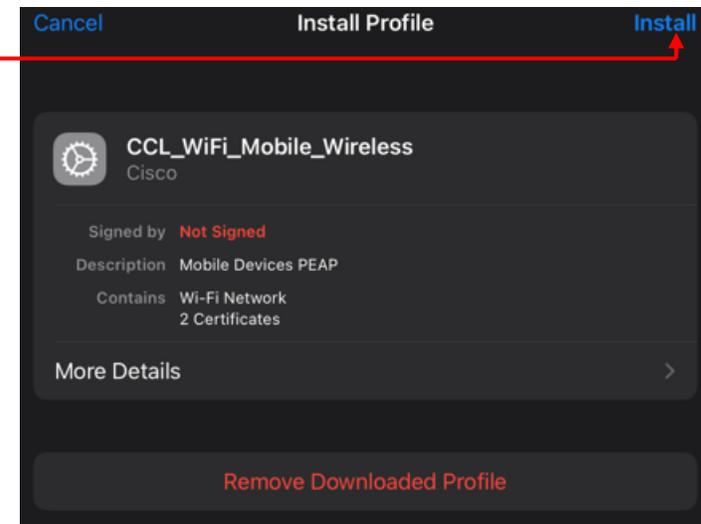

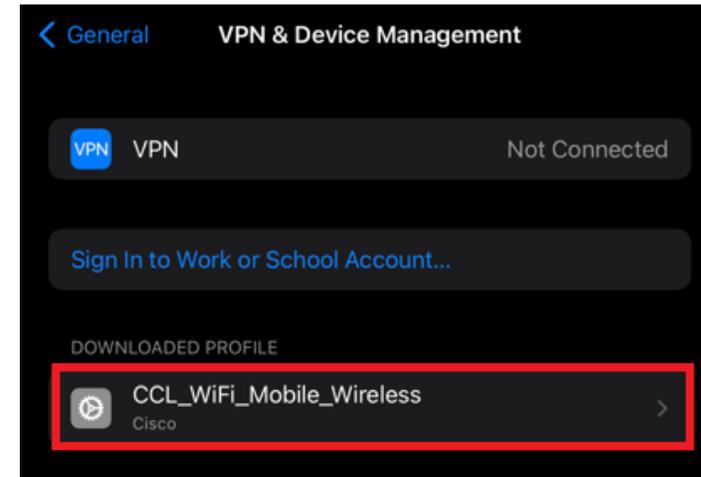

Select VPN & Device Management

Step 6

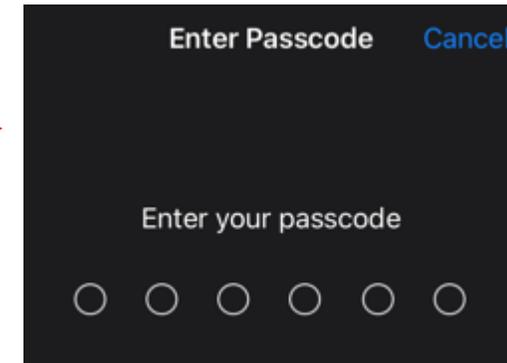

Select CCL_WiFi_Mobile_Wireless

Select Install

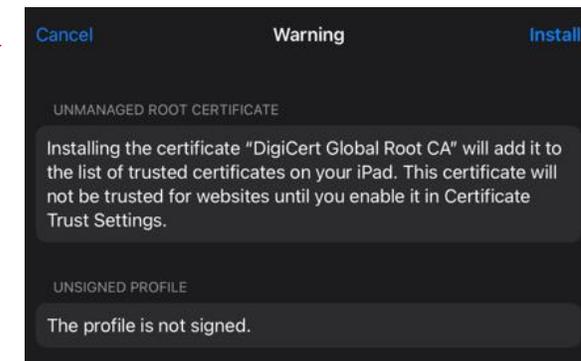

Step 7

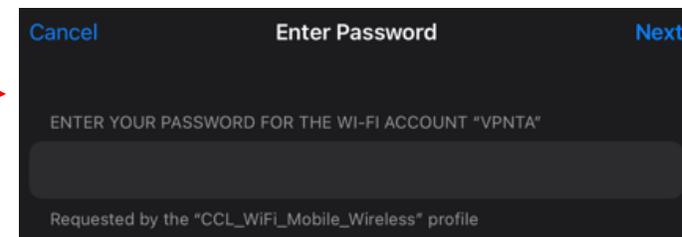

Enter your device's **Pin.**

Select **Install.**

Enter your CCL network password, and click **Next.**

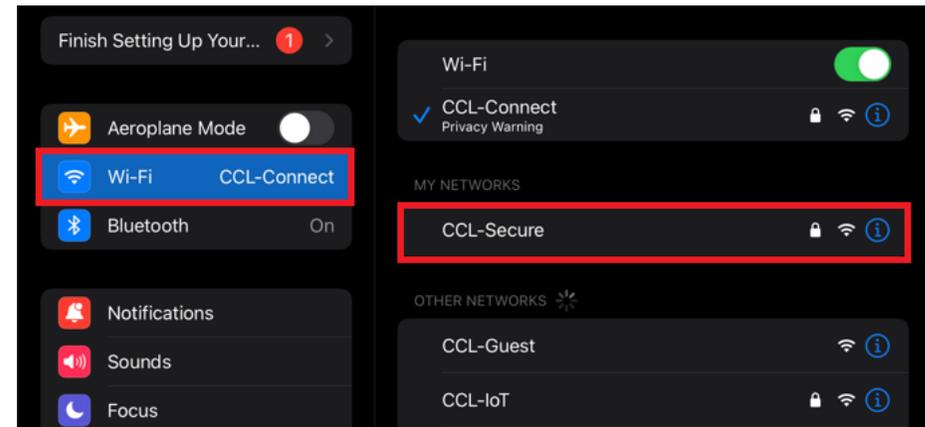

Click **Done.**

Step 8

Select **Wi-Fi** settings.

You will now see CCL-Secure is listed under
"My networks"

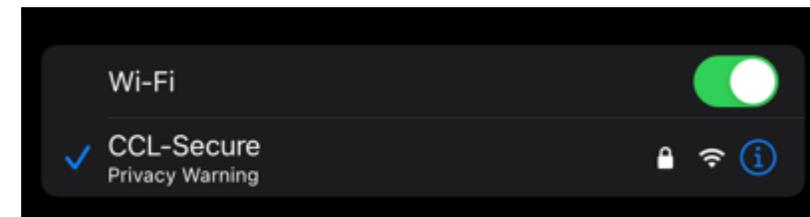

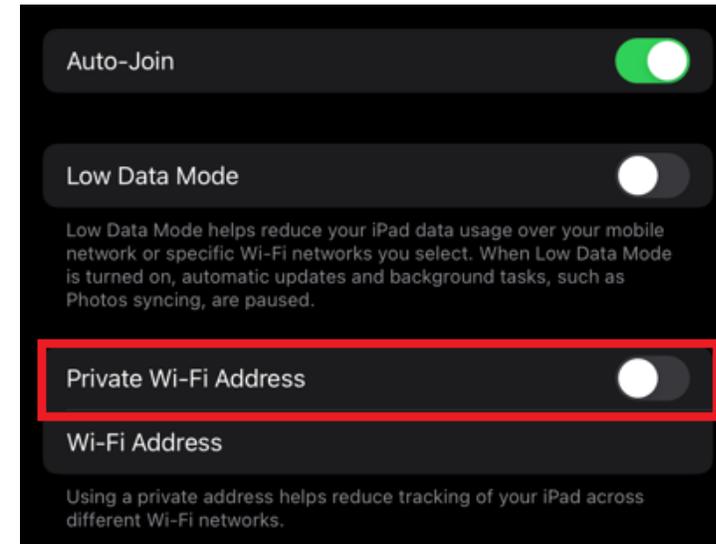

Select **CCL-Secure**

Step 9

Click the “i” next to CCL-Secure. This will open the settings for CCL-Secure. Turn **Private Wi-Fi Address OFF**

Your device will now be connected to **CCL-Secure**

Please verify that your internet connection is working. If it is, your device is now successfully connected to the CCL Network.

If you require any further assistance regarding the previous instructions, please contact CCL Support via email at support@ccl.com.au.
