# Counsel's Chambers Limited Network Device Connection – Windows 10 Wireless

1. Connect to the **CCL-Connect** Wireless network.

2. Open a browser (Firefox/Chrome/IE) and browse to any website or www.ccl.com.au. You will be redirected to the login screen **CCL Wireless Registration Portal**.

3. Login with your CCL Network username and password. If you do not know your password contact CCL support on 9221 6235 or email support@counselschambers.com.au.

4. Press the **Start** button.

5. Enter a name and description for your computer.

6. You will be prompted to download and run the **NetworkSetupAssistant.exe** tool. Save and run, or press "run" if given that option.

7. The **Cisco Network Setup Assistant** program will open. You may be warned that Smart Screen is not able to run, this warning can be ignored. Press **Start**.
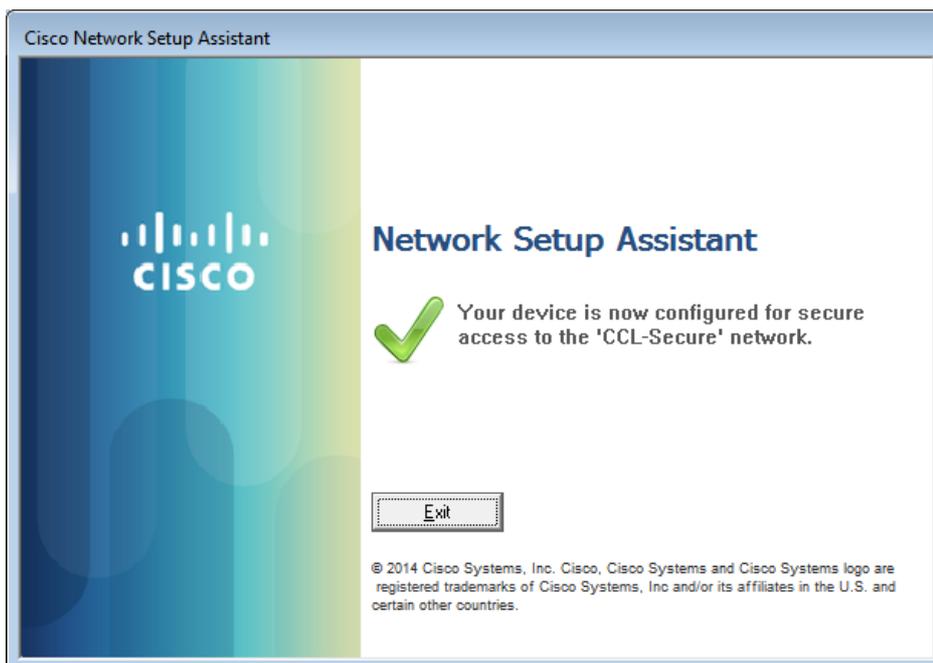

8. You will be prompted to install the **DigiCert Global Root CA** security certificate. For added security, check that the Thumbprint (SHA1) matches the one in the image below.

Security Warning ✕

⚠ You are about to install a certificate from a certification authority (CA) claiming to represent:

DigiCert Global Root CA

Windows cannot validate that the certificate is actually from "DigiCert Global Root CA". You should confirm its origin by contacting "DigiCert Global Root CA". The following number will assist you in this process:

Thumbprint (sha1): A8985D3A 65E5E5C4 B2D7D66D 40C6DD2F B19C5436

Warning:
If you install this root certificate, Windows will automatically trust any certificate issued by this CA. Installing a certificate with an unconfirmed thumbprint is a security risk. If you click "Yes" you acknowledge this risk.

Do you want to install this certificate?

| Yes | No |

Press **Yes**.

9. Your device is now able to connect to the **CCL-Secure** Wireless network.
