

Device Onboarding – iPhone and iPad

1. Connect to the **CCL-Secure** Wireless network and enter your **CCL username** and **password**.

A notification will appear, click **Trust**.

i If you do not know your password, you can reset it using the CCL password portal <https://password.ccl.com.au>, or you can contact CCL support by telephone 9221 6235 or email support@ccl.com.au.

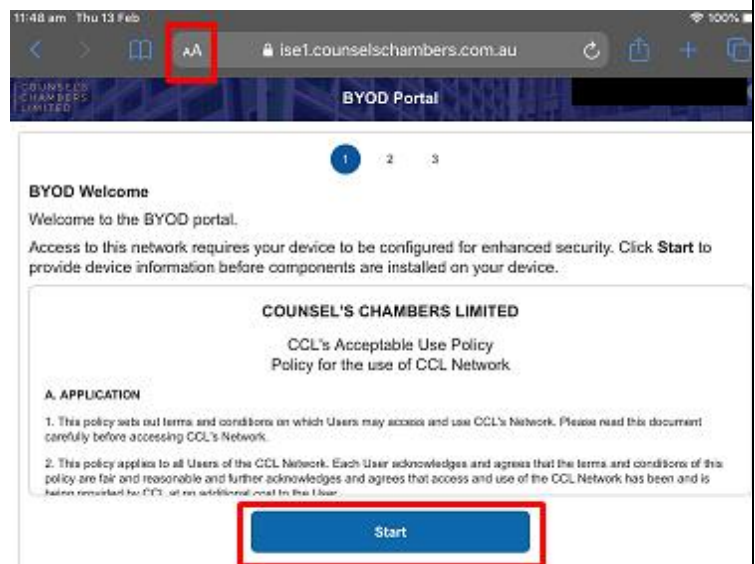

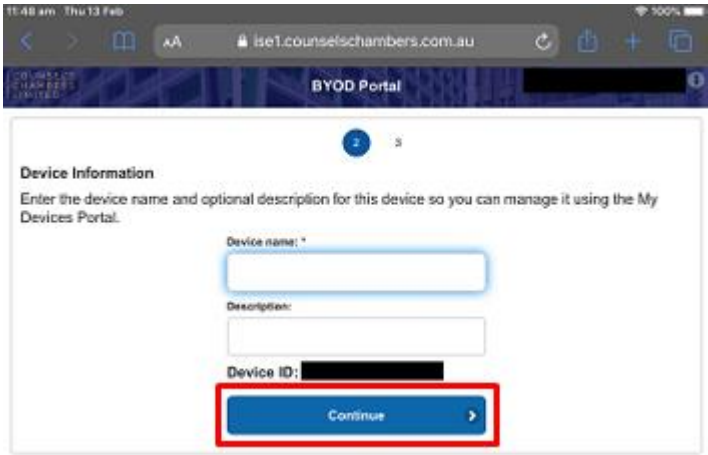

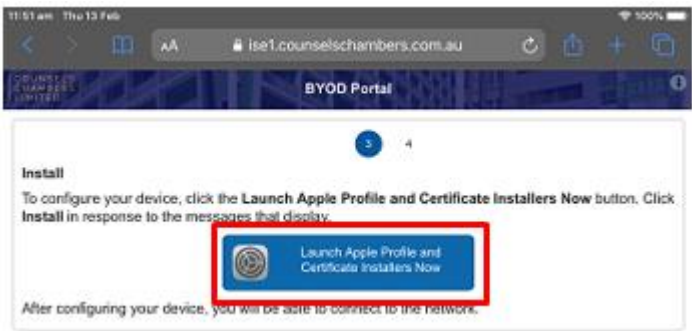

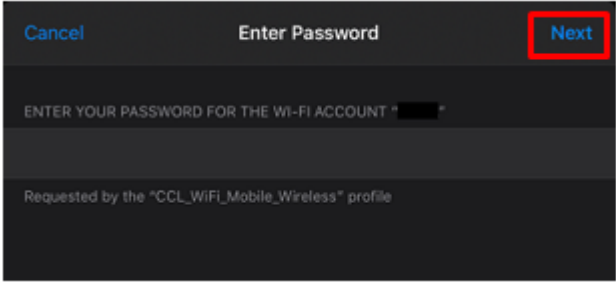

2. Open Safari and type **login.ccl.com.au** in the address bar.

You will be redirected to the onboarding screen **BYOD Portal**. (This may happen automatically on some devices).

After reviewing the CCL Network Acceptable Use Policy, click **Start**.

Note – For any iPad running iPadOS, you will need to click the **AA** button to the left of your search bar and click **“Request Mobile Site”** (if you don’t have the **AA** icon, your device isn’t running iPadOS). If you see **“Request Desktop Site”**, do nothing.

<p>3. Enter a Device Name such as “iPad” or “iPhone”, and press Continue.</p> <p>A description is optional.</p>	
<p>4. Click the Launch Apple Profile and Certificate Installers Now button.</p> <p>A pop up will appear, click Allow.</p>	
<p>5. You will be taken to the Profiles section. Click on the profile called CCL_WiFi_Mobile_Wireless.</p> <p>Click Install when prompted. You will then be asked for the iPad/iPhones pin code.</p> <p>You may then be prompted with a few more windows, click Install for each.</p>	
<p>6. You will now be asked to enter your CCL Network Password. Enter your password and click Next.</p> <p>Once your CCL password has been correctly entered, a Profile Installed window will appear. Click Done.</p>	

7. Click the **information** icon next to the tick for CCL-Secure and turn **off** *Private Address*.

You should now be successfully connected to the **CCL-Secure** network.
