

Device Onboarding – macOS (Wi-Fi)

<p>1. Connect to the CCL-Connect wireless network.</p>	
<p>2. Enter your CCL network username and password, then press Join.</p> <p>i If you do not know your password, you can reset it using the CCL password portal https://password.ccl.com.au, or you can contact CCL support by telephone 9221 6235 or email support@ccl.com.au.</p>	
<p>3. Open Safari web browser and type login.ccl.com.au in the address bar.</p> <p>You will be redirected to the onboarding screen BYOD Portal. (This may happen automatically on some devices).</p> <p>After reviewing the CCL Network Acceptable Use Policy, click Start.</p>	

4. Enter a **Device name** and press **Continue**.

The description field is optional.

5. Click **Allow** when prompted to allow the download of the setup file.

The setup file will start downloading.

Do you want to allow downloads on "ise1.counselschambers.com.au"?

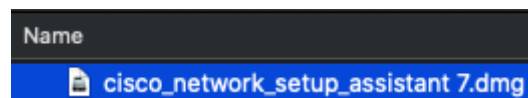

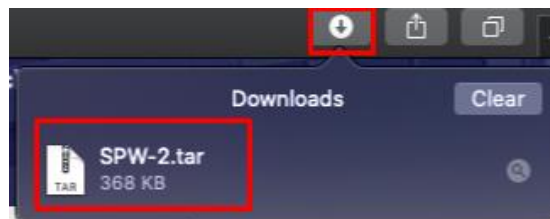

You can change which websites can download files in Websites Preferences.

Cancel **Allow**

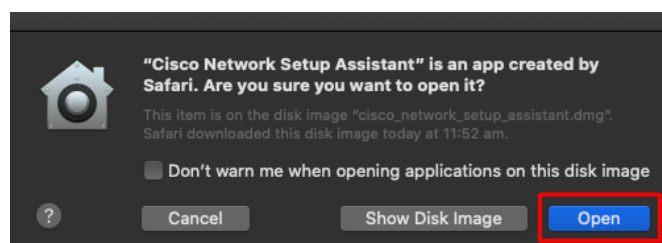

6. Open your **Downloads** tab/folder and open the file named **SPW.tar**.

This will extract the actual setup file below.

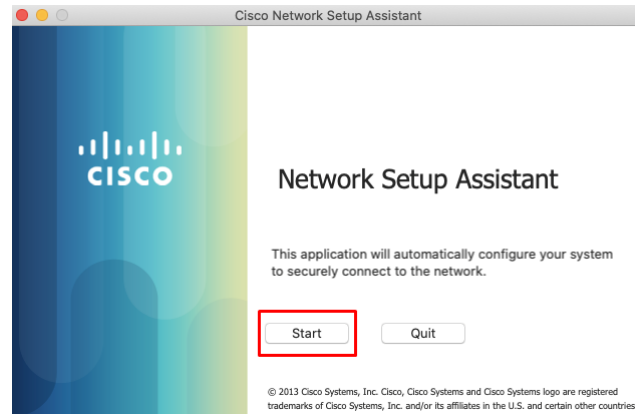

Open the **Cisco Network Setup Assistant DMG** file in your Downloads folder.

7. Click **Open** if you see a security prompt.

8. Click **Start** to initiate the onboarding process.

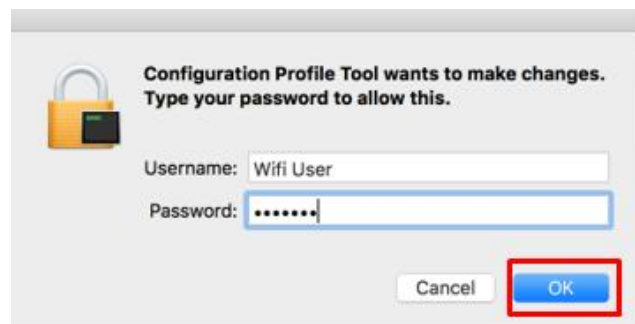

9. Click **Continue** when prompted with a certificate warning.

10. You will receive two further security prompts.

Enter the username and password for your **Mac computer** and click **OK**.

11. If the onboarding was successful you will see a green tick, and you can proceed to the next step.

If you receive an error please contact CCN support:

Phone: 0292216235
Email: support@ccl.com.au

12. Close the Cisco Network Setup Assistant app, and verify that your device is now connected to the **CCL-Secure** Wi-Fi network.
